 **Nott Just A City Exhibition** APR 14
Nottingham

Thesis project selected by Nottingham & Derby Society of Architects for a city-centre, public exhibition.

Near-Living Architecture DEC 14
Written Work Published

Excerpt of my written critique published in, 'Near-Living Architecture' by Philip Beesley.

Prototyping Architecture Exhibition OCT 13
Ontario, Canada

Exhibited a prototype concrete beam made using geotextile fabric formwork.

Studio Tutor SEP 10–TODAY
The University of Nottingham

An established position tutoring 3rd year and 2nd year undergraduates weekly in Unit 4, lead by Undergraduate Course Director David Short. Responsible for running workshops, marking and providing student feedback.

Architectural Assistant (Part II) JUL 14–TODAY
RDArchitects

Responsible for running all aspects of my assigned jobs across all RIBA stages. I bring a design-through-making approach to projects I work on and have seen a number of jobs through technical design stages onto site.

Architectural Assistant (Part I) OCT 11–AUG 12
Morse Webb Architects

3D Visualisation, presentation images, competition design work, planning applications, building regulations applications, 1:5 & 1:10 detailing, feasibility studies.

Volunteer SEP 10–JUN 11
Trent Vineyard

Working across a breadth of new media with a contemporary Nottingham church including; graphic design work, broadcast quality HD video shooting, editing and directing, 3D visualisation and animation.

Freelance SEP 10–OCT 11
Graphic design, web design and wedding photography for income during year of voluntary work.

Jouberton Nursery School 2009
Live Project, South Africa

Selected as part of the group who designed and built a nursery school in Jouberton, South Africa. As well as my individual proposal being short-listed, I was playfully given the, 'most appropriate person to be involved' award. My joinery experience directly informed a number of on-site decisions incl. construction methodology. I was the only team member to pack tools.

Joiner's Apprentice 2007-2009
P.A.T. Joinery

Experience working on timber frame construction projects from beginning to end. Key work including roofing and 1st/2nd fixing. Also worked on the residential conversion of a listed public house.

Personal Profile
I work efficiently to maintain a healthy, creative balance in life. During my masters degree, I proposed to my now-wife and got married, tutored 3rd year BArch students weekly, took Sundays off and attained a first class mark across all modules.
